## PRODUCT INFORMATION

# Shift+ Landscape Mobile cabinet elements.

Structure of glued linear carcasses on a steel cross-member with 4 technical castors, 2 of which are lockable. Carcass made of melamine-resin-coated LIGNOpal chipboards with glued-on plastic edge. With glued, 2/3-height centre walls for partitioning the carcasses in the lower area. With rows of holes (25 mm) for adjustable shelf inserts and a perforated-plate back panel. With a locker on the left or right side.

Front consisting of a single-wing door with bow-type handle, inset-type handle or handle knob.

Locking system optionally with cylinder or turn-knob locks.

Function: With magnets on the outer sides for docking further cabinet elements.

Push-handles made of steel on the top of the carcass.

The following material groups are available to choose from: Carcass made of LIGNOpal: L1,(white); Perforated-plate: M2,3,10.
